Electrick Children

Målgruppe: 7. til 10. klasse. GU

Beskrivelse

15-årige Rachel og hendes familier er mormoner, der ikke gør brug af moderne teknologier. Da hun finder et kassettebånd med rockmusik og samtidig opdager at hun er gravid, tror hun at rockmusikeren på båndet er faderen til barnet. For ikke at blive tvangsgift, flygter hun til Las Vegas på jagt efter stemmen fra båndet.

Pædagogisk note

Denne film foregår i et mormonsamfund og et skatermiljø. Selv om det synes usandsynligt har de respektive hovedpersoner Rachel (mormon) og Clyde (skater) meget til fælles. I den pædagogiske vejledning udforskes dette og der lægges vægt på elevernes egen perspektivering i de producerende opgaver i slutningen af vejledningen. Filmen og temaerne og ikke mindst musikken i filmen gør den meget relevant for udskolingen.
